

2019 RACE DIRECTORS SUMMIT

A joint initiative between BC Athletics and Triathlon BC, the joint Race Directors Summit was created in 2018 with an aim of professionalizing the delivery of sport, maximizing participation in sanctioned sport, and enhancing the athlete experience.

It is our hope that the senior leaders presenting today offer a unique, professional perspective on tackling many of the common challenges we share in an event market place that is often saturated with options in many regions across the province.
